Top 100 IMPLANT COMPLICATIONS

Sunday, November 22nd, 2015 at the Trump International Hotel in Toronto.

Surgery. Prosthetics. Maintenance. Unique and Memorable Presentation.

One in five implants will develop a complication: Learn how a new generation of ailing and failing implants can pose a danger to your practice.

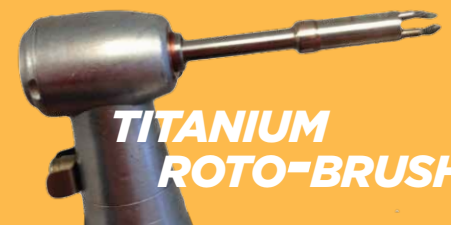

Remember the lingual nerve? Go back in time to vital gross anatomy training in dental school with a review of surgical anatomy for implants and learn how to reduce surgical risks.

Review the most common prosthetic complications in implantology based on recent longitudinal studies and learn how to avoid or manage them.

Learn how to Identify failing implants and review an effective protocol for treating peri-implantitis and peri-implant mucositis with recently introduced titanium roto-brushes.

Learn diagnosis and risk assessment for implant reconstruction to avoid complications and reduce long term management costs.

Understand the laboratory perspective on implant complications and learn how to save time and money.

**TITANIUM
ROTO-BRUSH**
